

Is your congregation ready to move from *doing* mission to being *missional* in attitude and vision?

Then we invite you into a partnership... the Partnership for Missional Church – a journey of spiritual discernment that empowers churches like yours worldwide to respond to God’s mission, so that your outreach and your life together as a church are witnesses to Jesus Christ.

“PMC provided us with a theological key to address the typical problems of an institutional church.”

Dr. Jurgens Hendricks

Chair, Dept. of Practical Theology and Missiology,
Stellenbosch University

Executive Director, Network for African Congregational Theology

“Being missional is not something you do, it is something you are.”

Manus Olivier

Pastor
Swakopmund, Namibia

“Out of the consultation [with CI] we were able to shape our guiding vision and core values in which all part of the church had ownership and interest... [CI] surprised us again and again by helping us to see the creative potential of conflict and to imagine positive outcomes as we allowed ourselves to deal with the conflict.”

Stanley Green

Executive Director
Mennonite Mission Network

PARTNERSHIP FOR
MISSIONAL
CHURCH

A journey of spiritual discernment
empowering churches worldwide

The **Partnership for Missional Church** is just that, a partnership. Church Innovations consultants shepherd congregations and their judicatory bodies through a process of discovery about their individual church and God's specific call for them.

During this journey your congregation will seek answers to many questions:

- Where are we?
- Who are we?
- What is God doing here?
- How is God sending us?
- How is our church living now into God's preferred and promised future?

This journey is about building capacities in your congregation:

- Listening
 - Risk taking
 - Focusing
 - Learning & Growing

The Partnership for Missional Church helps congregations grow by developing:

- A God-centered, biblical vision for mission
- A greater sense of God's activity in their congregation and community
- Ownership of the mission of the congregation by more members
- Members committed to and capable of making disciples
- Both a vision for mission and a practical action plan to achieve it
- Strengths of the tradition of the congregation
- Practical skills for managing change and attending to conflict
- Dramatic expansion of lay involvement
- A decision-making process for planning activities and budget
- A faithful and hospitable congregation
- Relationships with other partner congregations

About Church Innovations

Church Innovations' team of Christ-centered consultants and staff come alongside congregations to nurture healthy growth and change. Our consultants are thought-leaders in today's Church and have ministerial, seminary, and research experience.

Since 1990, Church Innovation's research staff has combined both quantitative data and applied ethnography (deep listening) to help congregations discern what God is doing in their communities. This depth of experience has led to refined processes and tools that will support congregations in their listening and growth.

"The foundation for mission is scripture. What excites me about Church Innovations and PMC is that the Bible is taken seriously. We are trying to really discover who God is through his son Jesus Christ and the Holy Spirit in the scriptures."

Uma Onwunta

Doctoral student in missiology
